## IMPROVING.

Such is the Tone of the Report from Memphis This Morning.

Signs of the Abatement of the Fever Many and Unmistakable.

New Cases Numerous in the Suburbs, Many Threatening Fatal Results.

Wet and Very Unfavorable Weather Reported from Vicksburg.

Which Tends, in Most Cases, to Retard Convalescence.

Little if Any Change to Report in the Situation at New Orleans.

Doctors Leave Grenada, and the Daily Newspaper Makes Its Appearance.

Greenville, Miss., Cut Off from the Outside World for Ten Days.

Much Suffering Resulting from This Enforced Seclusion.

MEMPHIS.

COLD AND WET.

Special Dispatch to The Tribune.

Memphis, Tenn., Sept. 20.—It has been raining since 10 o'clock, which is unfavorable both to the sick and those who yet remain well. Up to noon to-day twenty-three deaths have occurred. This, however, is not in all, as it is a very difficult matter to get at the correct number, owing to the looseness which characterizes the management of two of the undertakers' business arrangements. The official report of deaths made to the Board of Health since the beginning of the epidemic, and ending at noon to-day, gives a total of 2,340. This does not include many who have been buried by private individuals, who purchased coffins and interred their own dead.

Among the victims whose death has claimed since last night are S. R. Clarke, a prominent citizen and Secretary of the Phoenix Insurance Company of this city; Mrs. J. G. Lonsdale, Sr.; J. H. Kalk, formerly a Colonel in the Federal army, from Des Moines, Ill., but who had resided in Memphis since the closing of the war. Two Armenians, Barney Lynch and J. Luccanini, have also died.

As increase in the number of deaths will follow the change of weather.

Dr. W. J. Armstrong, a Howard physician, died today; also Gus Moritz, a prominent citizen of the Tenth Ward, and H. Bernard, an employee of the Howard Association.

The wife and daughter of John H. Mitchell, brother of Maggie Mitchell, the actress, are also among today's victims.

Dr. E. T. Easley, a volunteer physician from Little Rock, and Dr. J. T. Easley, the city physician, who have been on duty at the City Hospital, were struck with the fever this afternoon. Eugene W. Moore, a prominent member of the Temple of Honor, and temporarily filling the position of city editor of the Memphis Appeal, was taken down to-night. Holts & Bro., undertakers, have closed their business, except for funerals and occasional burials.

Dr. B. F. Sheffield, of Savannah, Ga., who had been sent from this city to report on the epidemic, and reports only one case of fever there. This one case had the effect to cause a general desertion of the town. The Howard Association, who removed from Memphis since the first night reported had died at Bartlett, but are now at McKenzie, Tenn.

Dr. W. Mitchell, of the Association, an Arkansas physician, has been sent to report on the epidemic, and reports only one case of fever there. This one case had the effect to cause a general desertion of the town. The Howard Association, who removed from Memphis since the first night reported had died at Bartlett, but are now at McKenzie, Tenn.
